AMTECH_{LC} ATWS-3000 WELDING STATION

VERSATILE CONFIGURATION

- Freestanding units are designed for multiple manual welding applications.
- Virtually no Installation Setup Required.
- Seamlessly fits most work stations.
- Dust drawer allows for ease of maintenance.
- Filters are easily accessed to facilitate fast replacement.

EFFICIENT AND EFFECTIVE

- Complies with the Clean Air Act.
- Pulls Smoke away from the Welder, creating a cleaner, safer working environment.
- Patented Downflow Design.
- Reverse jet pulse design optimizes filter cleaning and saves on Maintenance costs by extending filter life.
- Requires no duct work, reducing installation cost.
- Application specific filter media maximizes efficiency.
- Recirculates clean air , eliminating the need for expensive make-up air.
- Relocation due to changes in plant layout is simple and cost effective.
- Spark Baffle Inlet.

OPTIONS

- Dust Tight Light for a Well Lit Work Area.
- Afterfilter
- Overhead Hood
- Weld Curtains
- Ductwork Design and Fabrication for external venting if so desired.
- Fire Suppression
